

LINDSEY PARISH COUNCIL

Assessment of Risks that could affect the Finances or the Smooth Running of Lindsey Parish Council

This brief assessment considers the implications of accidents and wanton damage to Council property and, where such events may affect the finances or the smooth running of the Council what action should be taken to counter the risk.

The assessment looks at three areas:

1. Damage resulting in loss of income to the Council
2. Accidents resulting in a claim against the Council
3. Loss of or damage to Council assets

1. Loss of Income

INCOME GENERAL

The Council does not receive any income from the hiring out of any of its assets. The major source of income comes from the precept set annually by the Council with a small income resulting from Bank interest and refund of VAT.

1. Precept – adequacy of precept – to determine the precept amount required, the Parish Council receives update financial information and the precept is an agenda item at full Council. At the Precept meeting Council receives a budget update report, including actual position and projected position to end the year and indicative figures or costings obtained by the Clerk. With this information the Council is able to determine the required monies for standing costs and projects for the following year and applies specific figures to budget headings, the total of which is resolved to be the precept amount to be requested from Babergh District Council. This figure is submitted by the Clerk on an approve form by the due date. The Precept is considered by the due date. The Clerk informs the Council once the monies have been received. This year there was a review of the reserves held by the Council and it was agreed to raise the Precept for 2017-2018 as part of a longer term plan to put the Council's reserves on a good footing.
2. Income received from Bank interest and refund of VAT – VAT is reclaimed once a year in April following the closure of the year. Once the monies have been received in the Council's bank account the Council is notified accordingly. Bank interest is checked and received on a quarterly basis. The Clerk is notified of the amounts via bank statements. The Clerk reconciles the bank accounts on a bi-monthly basis and Council is notified of the sums received at the next full Parish Council meeting.

FINANCIAL CONTROL

The Parish Council have set up internal controls by way of a financial report being submitted to the Council at its bi-monthly meetings on income received to date, agreed expenditure to be incurred and an analysis of expenditure versus budgetary processes

with an annual audit conducted by an Independent Internal Auditor for the Parish Council and then an audited inspection by BDO Stoy Hayward LLP – Government Auditors.

FIDELITY GUARANTEE

The level of guarantee cover obtained by the council has historically been set at £25,000 with no increased limit.

Action

The Council considered that the level of fidelity guarantee cover was sufficient in the light of the bank balances anticipated to be held at March 2017 and the amount of precept to be received in April 2017.

2. Possible Claims against the Council

PUBLIC LIABILITY

The Council is at risk of being asked to pay compensation to members of the public for injury, illness, or loss of or damage to material property arising in connection with the Council's activities.

Action

The Council has taken out Public Liability Insurance with Zurich Municipal on a Local Council Policy Schedule for cover up to £6M for any one occurrence.

EMPLOYER'S LIABILITY

The Council is at risk of being asked to pay compensation to an employee or a volunteer worker for injury or illness arising out of, and in the course of, their employment by the Council.

Action

The Council has taken out Employer's Liability Insurance with Zurich Municipal on a Local Council Policy Schedule for cover up to £10M for any one occurrence and Personal Accident for Employees, Volunteers and Committee Members limited to £500,000 for any one person and £2M for any one incident.

3. Loss of, or Damage to, Council Assets

The Council's assets, together with their replacement value, are listed separately in the attached inventory.

VILLAGE SIGN

The risk of damage to the Village Sign comes from serious vandalism or from vehicular impact.

As it is located within a very quiet village, it is felt that the chances of vehicle accident with the sign is very low. If it were hit by a lawful driver, a claim could be made on the driver's insurance.

Minor vandalism of the sign is unlikely to occur given its high prominence in the village.

Action

The Council has insured the sign for its full replacement cost, less the first £100 of any claim, with Zurich Municipal on a Local Council Policy Schedule against damage by either of the above possibilities. The Council considers that the chances of a serious hit by an illegal driver is so remote as to not need consideration and that any vandal damage is likely to be minor, costing less than the insurance excess to put right.

NOTICE-BOARDS OUTSIDE THE VILLAGE HALL

There are two notice-boards within the village: both on the verge by the hedge surrounding the Village Hall.

The risk of damage to the notice-boards comes from minor vandalism and general wear and tear. It is agreed that the notice-boards in the Parish Council ownership are checked regularly for deterioration and any such vandalism.

Action

Both notice-boards are covered by the Parish Council's Insurance at full replacement value for serious vandalism and/or theft, less the first £100 of any claim. The Council consider that any vandal damage is likely to be minor costing less than the insurance to put right.

VILLAGE GREENS

The Council is at risk of being asked to pay compensation to members of the public for injury, illness, or loss of or damage to material property arising in connection with the Council's activities.

These areas are covered under the Parish Council's Public Liability Cover.

Action

The Council has taken out Public Liability Insurance with Zurich Municipal under a Local Council Policy Schedule for cover up to £6M for any one occurrence.

Events organised by other bodies have to have their own Public Liability Cover and Risk Assessments must be carried out.

When the Parish Council organises an event it must carry out a Risk Assessment and must ensure that it either takes out additional Public Liability Cover or the individuals invited to events have their own Public Liability Cover of not less than £5 million.

LINDSEY VILLAGE HALL - CHARITY NO. 304912

It is noted that the Parish Council is a Custodian Trustee for the above charity. As a custodian trustee the Parish Council has the custody, as distinct from the management of, trust property. The administration of the Charity is left in the hands of the charity trustees. A custodian trustee is not a charity trustee.

As per guidance from the external auditor BDO Stoy Hayward, community assets are assets which due to their nature or legal status do not have a market value as they cannot be sold. Such assets should be included on an asset register as their historic cost value or given a £1 nominal value (2010 guidance). This asset has therefore been given a value and included on the asset register to ensure that the body's ownership and responsibility are recognised and not lost or forgotten.
